

Nylo Print[®]

XP3009A

General Use

Nylo Print is designed for contour cutting of images using the Xpres Print & Cut system, for the Roland PC60, PC600 and Versacamm. It is recommended for application to Nylon.

Application

1. Feed the Nylo Print into your machine (printable side is rolled to the inside of the roll).
 2. Print your design onto the Nylo Print. If using Versaworks set the profile to **TTRH**.
 3. If the Nylo Print has been printed using Solvent inks, then a 12 hour natural drying time is recommended before handling transfer.
 4. Remove the badge from the backing.
 5. Press your design onto the garment for 15 seconds at 165°C with a light pressure using **XP2028** Silicon paper.
 6. **XP3022** Transfer Application tape can also be used for printing and cutting designs with individual parts (i.e. lettering).
- Note: If using **XP3022** peel cold.

Washing

- Washable to 30°C
- Do not tumble dry
- Do not dry clean
- Do not Iron

The Sellers and Manufacturers maximum obligation shall be to replace any material that has been proven to be defective. Neither the Seller nor the Manufacturer of Nylo Print shall be liable for any injury, direct or consequential, arising out of the use of, or inability to use this material.
